NSIC Single Point Registration FAQs

1. I have my user id but forgot the password how can I retrieve it?

   You can go to login page and with userID typed in username, click on forgot password link, this will send your new password to registered email.

2. From where I can get Inspection agency login id and password?

   Inspection agency login password is present in branch's head account.

3. When I am taking print out of certificate it is not coming properly

   Please follow print checklist which is provide beside search button in registered company list section.

4. What is Date of Issue?

   Date of issue is the date on which branch for the first time issues certificate to the unit.

5. What does Renewal Process started means?

   "Renewal Process Started" means that process has started and it must be waiting at account user for monetary limit and so on. One should always look at status of application to keep track of it.

6. What does 'Fill Backlog Units" means?

   "Fill Backlog means" means the data which has not filled in the Software and whose certificates has been issued in the past year, is needed to be filled by this link.

7. How to register for the "Provisional Registration" ?

   There is a link in the left side of the user's login naming "Provisional Registration". You may follow this link to feed the data of the Provisional registration. All other steps are similar to the regular registration except the Inspection is not done here.

8. Sometimes "Renewal" link does not come in the "Expired Companies" link. Why?

   The "Renewal" link would remain visible from 6 months of expiry of certificate upto 2 years of expiring the certificate.

9. How to search a particular unit at any stage of data entry?

   In order to search a particular unit, you may go to the "Reports", There are different criteria to filter the data based on that. If you want to filter more based on the

company's name you may put some matching string in the Search Box. There would be a list of units based on the conditions you impose and it tells about its "Status". i.e. Registered, Inspection Passed, Incomplete, Waiting, Underprocess etc.

10. What is "Edit Company Data"?

If you want to correct some small mistakes in the data of a unit, you may go to the "Edit Company Data" and type out the company name. You would be given three options to change the data i.e. Edit Store, Edit Monetary Limit, Edit Company.

11. What is mean by different types of Status?

1. Incomplete : Seven Steps of data entry are not completed properly

   Remedy : Go to the "New Unit Registration" or "Provisional Registration" to complete all 7 Steps again.

2. Waiting : The record is not accepted by the branch user because of payment reason.

   Remedy : Branch user would accept the record in the "Waiting Companies"

3. Inspection Passed: The Inspection Agency has uploaded the Inspection Report and record is ready for the turnover filling up.

   Remedy : Go to the Accounts user login and fill the audited turnovers.

4. Inprocess : The company is waiting for the approval by the Branch head or the Zonal/ HO, as the case may be.

   Remedy : Go to the Branch Head or the Zonal head for the Approval of the unit.

5. Registered: The company is a registered company in the software.

6 Expired : The company is available in database in Expired Companies.

12. How to set the Monetary limit?

Go to the Account users login and click on the "Pending Monetary Limit". There would be three links available naming (1) For Registration, (2) For Renewal, (3) For Amendment.
Go to the respective case and there would be a new list showing the companies whose Monetary Limit needed to be set.

Now feed the Monetary limit in ascending orders and provide the Profit or loss. i.e. Either the Profit or the loss is to be provided.
After clicking the Calculate, you would be having the calculation based on the rules.
